

The steps are enumerated with each step number corresponding to the number on the map. Remember that you can use the phone for other things while the audio file is being played. Also note that sometimes you have to walk while listening to the play.

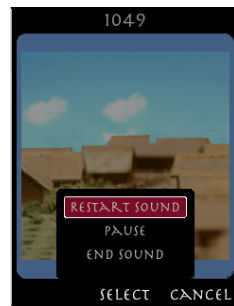

### How to make choices

During the play you will be requested to make choices. This is accomplished by scrolling through the different answers using the arrow keys and pressing "Select". Your choice will affect history itself!

### How to control the audio playback

If you need to pause an audio file during the play, please press the middle button and select "Pause" in the menu. In the same menu you can also select to replay the current audio file or proceed to the next. The volume is adjusted as you are used to on your phone.

After your encounter with HIKUIN please provide us with feedback of your experience so that we can improve the play. The questionnaire can be found at: [www.interactivespaces.net/hikuin/survey/](http://www.interactivespaces.net/hikuin/survey/)

ENJOY THE EXPERIENCE!

# USER GUIDE

At the bottom of the display you'll find some icons, which can be navigated using the three buttons beneath the icons.

	Accept your choice.	
	Choose action.	
		Go back to the previous screen display.
	The camera scans the TAG.	
	Scan a TAG with the camera or key in the number code.	
	An audio file is being played. If you press again you can the opportunity to pause the audio file. You can easily navigate other menus while playing an audio file.	
	Look at an object related to – or found – where you stand	
	See a map showing the route to the next TAG. The route is in red and the numbers refer to the specific steps in the route description.	
	Get a description of the route to the next TAG. Each step is explained in detail when you navigate to it using the arrow keys.	
	See how Aarhus looked like when it was called Aros. Note where the city mound was compared to how it looks now.	
	See how the view was in the year 1049 from where you are standing now.	
	See how the view is in the year 2009 from where you are standing now.	

## How to play an audio file

Find one of the 12 signs, which are displayed in the urban space of the city. The experience begins at the Viking Museum at Bispetorv.

When you see a camera icon at the bottom of the display, press the button underneath it to scan a TAG, or key in a number code.

Subsequently, you will get the option between scanning a TAG (that is taking a picture of the TAG), or keying in the three-figure number code, which is found below the TAG on the sign. Marc the choice by using the arrow keys, and press "Select".

If you choose to scan the TAG from the sign, remember to place the phone right in front of the tag, and get the display of the full TAG. Press "Scan" to scan the TAG. Keep the phone steady until the phone has registered the TAG.

If you choose to key in the number code, enter the three-figured number code and press "OK".

## How to navigate the city

In order to navigate the city, you need to follow the route on the map and the directions on the route map. You can swop between "Map" and "Route" in the bottom right hand side of the display.

The Route Map is divided into steps, which you can scroll by using the arrow keys in order to get the full descriptions.
